📍 101 Ave Aristide Briand, 38600 Fontaine, France  
📅 DOB 21/12/1985 (37 year old) Asunción, Paraguay

With my last degree as a DevOps Engineer and 6 years of experience as a developer working with different languages like Java and Python. I have also experienced administrating and developing database environment like Postgresql and Oracle. I'm working today as a freelance, learning new skills and tools about technologies, automation and the most important, team work. I am interested in sharing and learning knowledge about new ways to build solutions. I wish to continue my career innovating on development projects as a software architect and/or developer/architect.
