*+595 981 282 485   alarreine@gmail.com
*497 Cnel. Gracia, Asunción, Paraguay
DOB 21/12/1985 (33 year old) Asunción, Paraguay

Developer with 5 years of experience in JEE and Java-Android. I have also an experience in Databases like Postgresql and Oracle. I'm working today as a DevOps Engineer, learning new skills in the DevOps Culture and its tools. I am interested in new technologies and the opportunities that can bring web-mobile development, I wish to continue my career innovating on development projects as a software architect and/or developer/architect.

COMPUTER SKILLS

Programming Languages	Java (**JEE**, **JSE**, JME), C, PHP, Python
Programming web	Javascript, AngularJS, Bootstrap, CSS
Programming mobile	Ionic, Java-Android, J2ME
Data Base	Oracle Database, Microsoft SQL Server, MySQL, PostgreSQL
Tools	**IntelliJ Idea**, **Eclipse**, Visual Studio, Maven, Ant, SVN, git, Jira
Middleware	**Wildfly**, Glassfish, WebLogic
OS	Mac OS, Windows, Redhat, Centos
Modelling	UML, OCL
CRM	Salesforce Admin
Other	Bonitasoft

WORK EXPERIENCE

September-2017
March-2019

Devops Engineer, BONITASOFT, Grenoble-France
Provide a solution to use Continuous Delivery practices for Bonita Stack.
1 year internship
> Create and modify Ansible scripts
> Design and development in python
> Automation of deployment in AWS
> Participation in the implementation of Jenkins and Nexus
> Salesforce admin

Ansible | Amazon AWS | Jenkins | Maven | Nexus | Python | git | Salesforce | Jira

FEBRUARY-2017
JUNE-2017

INTERNSHIP | RESEARCH, LIG, GRENOBLE-FRANCE
Working in a research team with an exploratory project about The Automation Porting of Device Drivers
https://persyval-lab.org/en/exploratory-project/automated-porting-device-drivers-apd2
TASK
> Creating scripts in Coccinelle to search in Linux Code
> Creating scripts in Termite
> Analyzing linux code and result from Coccinelle and Termite

Coccinnelle | Haskell | C | ocaml | LaTeX

JUNE-2014
MARCH-2016

ANALYST-DEVELOPER JEE - ANDROID, LOTHAR SA - TIGO, ASUNCIÓN-PARAGUAY
Working in a developer team on different projects, all with different stacks and depending on other architectures like SMSSender, USSD, middleware and others
TASK
> Supporting and Maintaining JEE applications
> Analyzing and developing new features
> Redaction of the documentation
> Supporting, maintaining and adding new features in android application Google Play id=com.tigo.cs.android
> Analyzing and developing a new multi-stack application. Google Play id=com.tigo.star.android

Oracle 12c | RedHat | svn | maven | J2EE | JMeter | Glassfish | Rest

FEBRUARY-2012 MAY-2014	DATA BASE ADMINISTRATOR, CONTRATACIONES PÚBLICAS, ASUNCIÓN-PARAGUAY In charge of the Dev and Preproduction Database **TASK** > Installation and configuration of the development and preproduction environment > Checking log status > Query, function and procedure optimization > Backups > Design and Implementation of a Replication System and restore procedure > Design and development of a database multi index for searching related data in the database PostgreSQL MySQL REDHAT 7 PgBench Zennos Bash HeartBeat PgPool
September-2011 December-2012	Developer Freelance, THE DERBY, Asunción-Paraguay > Supporting and Maintaining J2ME application. Java J2ME Android PHP Delphi RAD Studio
September 2011 January-2012	Developer, COMPUTER AND SYSTEM DEPARTMENT, JUSTICE PALACE, Asunción-Paraguay > Conception and Development of a Criminal Record searching. .NET SQL Server

EDUCATION

2017-2018	**University of Grenoble Alps - IM2AG** Master 2 Software Engineering
2016-2017	**University of Grenoble Alps - IM2AG** Master 1 Computer Science
2011	**University Autónoma de Asunción** Systems Audit Specialization
2005-2010	**University Autónoma de Asunción** Bachelor degree in Computer Science

✚ TRAINING

2011	**Centro Latinoamericano de Administración para el Desarrollo** Congress of Public administration. XVI International Congress CLAD.
October 2018	**EI Technologies - France** ADM201 – L'Essentiel de l'Administration pour les nouveaux administrateurs
